

## TST-125

Item no. 19942

Document type: **Product card**

Document date: **2019-05-29**

Generated by: **Systemair Online Catalogue**

### Description

Technical details can be found [here](#)

The Systemair TST circular supply diffuser. The distribution pattern can be altered and the gap width is adjustable.

### Function

The TST is a circular supply diffuser for ceiling installation. The two-part diffuser unit can be adjusted to provide the desired throw. A shielding device is included which can be used to alter the distribution pattern to a directional (180°) pattern.

### Design

The TST is manufactured from galvanized sheet metal, with a white powder-coated finish (RAL 9010-80). The TST is available with the following diameters: ø 100, ø 125, ø 160, ø 200, ø 250 and ø 315.

### How to use for exhaust air

This device can be used for exhaust air.

### Mounting

The diffuser is installed directly onto the spiral duct and fixed with pop rivets. If the diffuser is fitted to a PER plenum box, there must be a straight length, 4 times the duct's diameter, in front of the PER plenum box.
